### Document Body

Hi Wendy,  
We're OK with the locations, but it would be helpful if we could see an East-West (NZ59, NZ62, MW34) and North-South (NZ64, NZ63, NZ89, NZ120) cross section. Thanks.

Subject: Proposed Pesticide Well Locations

George Team,

Attached please find a figure showing two proposed well locations to delineate the upgradient extent of the dieldrin plume in the Upper Aquifer, as discussed at the 9 September 2003 BCT meeting. The proposed wells would be installed in accordance with the Final Phase II Pesticide Investigation Sampling and Analysis Plan (MWH, March 2003).

Please let me know what you think, and feel free to call with any questions.

Thanks!  
Wendy
